Work Projects

Omorpho: *Javascript, HTML, CSS, React, NextJS, Gatsby, Chord SDK, GraphQL, Contentful, Stripe, Segment, Google Analytics*

Gravity Sportswear e-commerce website and Point of Sales System.

- Built and maintained the front end for Omorpho.com.
- Created highly customizable and reusable responsive components to match design specifications.
- Created a Point of Sales system using NextJS and Chord SDK. Incorporated Stripe terminal payments.
- Improved conversion rates through the integration of Segment and Google Analytics to add more analytics coverage and gain insights into user behavior.
- Regular standups, retrospectives, and task estimation.

Lumber Agency Website: *Javascript, HTML, CSS, React, NextJS, Segment, Contentful, GraphQL, Segment, Contentful, ThreeJS*

Lumber Agency front facing website for clients and future employees.

- Rebuilt company's main website from the ground up, making it highly customizable and performant while maintaining a high level of intractability.
- In charge of research, development, and integration.

Goodles *Javascript, HTML, CSS, React, NextJS, Gatsby, Chord SDK, GraphQL, Contentful, Stripe, Segment*

Goodles Mac and Cheese e-commerce website and Point of Sales System.

- Helped maintain the main website and push updates such as support for subscription services.
- Created a Point of Sales system to help facilitate in-person transactions.
- Updated the website to expand markets to more nations across the world.
- Created documentation to help onboard developers and editors.
